

Delivered a robust SAP solution to help a leading glassware company in Planning, Tracking, Monitoring, Execution, and Analysis of Projects, Capital Expenditures & Investments.

Case Study

Industry: Manufacturing & Engineering

Technology: SAP Project System (PS), SAP Investment Management (IM), SAP ERP

Country: India

Client Profile:

With 5 decades of experience in delighting consumers with state-of-the-art glassware and scientific apparatus, the client is running India's leading consumer products manufacturing & engineering company. They have diversified manufacturing facilities across India. The company has built a large distribution channel of more than 5000 retailers in India & other countries such as the UK, USA, Middle East, and Europe.

Challenges:

As a part of their manufacturing expansion initiative, the client was planning to set up a new state-of-the-art plant and wanted to track all regular and capital expenses, manage the budgets & capitalize the overall all investment. Also, the client wanted to align project activities planning to ensure timely completion of plant setup.

Solution

KCS has successfully implemented and rolled out SAP Project Systems & SAP Investment Management modules for multiple plants. Key highlights of the solutions offered by KCS for the client:

- The solution helped the organization to Plan, Execute, Control, and Manage every activity across Purchase, Budgeting, Asset Management, and Project Scheduling
- Robust integration of Solution with Material Management helped the organization to allocate & control all regular & capital expenditures to Projects, Network and Activities and helped the client track Project-specific expenditures
- The solution manages the budgets & across the hierarchy of Network, WBS levels to control over spending

- The solution defines complete project management approach, and helped the client to plan each activity, manpower allocation, sub-contracting execution and deliver timely completion of all tasks/activities
- The solution helps to track and analyze asset lifecycle to aid management decision-making

KCS Approach

Experts at KCS delivered a cutting-edge and highly intuitive investment tracking system for the client. This system helped the company in efficiently tracking expenditure during establishing a manufacturing plant. The successful rollout of SAP Project Systems and SAP Investment Management modules helped the client in assigning the expenses into various categories and streamline investment tracking tasks.

Outcomes

- Control on budgets, Investments, and Assest management
- Reliable tracking of capital project expenditure
- Streamlined project expense management
- Efficient project scheduling and delivery
- Integrated with other SAP ERP modules
